ASHISH VERMA
Web Developer

I am Ashish Verma, a twenty one year old programmer from New Delhi, India. I am currently pursuing my Bachelor's degree in Computer Science & Engineering, from Indian School of Mines, Dhanbad.

I have a passion for creating challenging, intuitive and beautiful software. I love to spend my free time reading tech-blogs and hacking into open source products and softwares.

EDUCATION

2016 — **Indian School Of Mines, Dhanbad**
Bachelor of Technology, Computer Science & Engineering

2011 — **Somerville School, Greater Noida**
CBSE (AISSCE), Grade XII
Percentage: 90.0%

2009 — **Somerville School, Greater Noida**
CBSE (AISSE), Grade X
Percentage: 89.0%

EXPERIENCE

Jan 2015 — **MIS project for ISM Dhanbad**
Worked on the PHP based software to automate administration of ISM Dhanbad. Designed the front-end UI and developed a set of APIs to build a responsive front-end for whole system.

May 2014 — **Intern at Astrea IT/SalesForce**
Worked on two live projects based on developing SalesForce apps with VisualForce pages and integrating them with databases using Apex.

Mar 2014 — **Made College's Cultural Festival's official website**
All the frontend work was done in HTML, CSS and JavaScript. Creative media and canvas techniques were implemented.

Dec 2013 — **Work on the website for ISM Model United Nations**
Main focus behind development of the website was creating an amazing (UI) design for the website. For my work on this website I gained recognition as one of the best web-developers in the MUN community.
